## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 3/6/07 have been fully considered but they are not persuasive. Applicant argues the combination of Nishihara JP 2002275001, Nishihara JP 2003111830, and Kitajima JP 8133901 does not disclose a first cotton material sealing member for a mouth and a second cotton material for a ear or nose plug as presently claimed. However, Kitajima clearly shows a cotton sealing member for a mouth, ear, and nose plugs in Figure 1 and 2.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 45-90 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 45 recites the limitation "water-material". It is unclear what the term "water-material" is referencing. The Examiner interprets the claim to mean a 'water-absorbent material'.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 45-90, as best understood by the examiner, are rejected under 35 U.S.C. 103(a) as being unpatentable over Nishihara JP 2002275001 in view of Nishihara JP2003111830 and further in view of Kitajima JP 8133901.

Nishihara discloses a device and method for preventing humoral ooze comprising a syringe 1, inserting tube 4,7, covering member 5, and a jelly substance 8. Nishihara '001 does not disclose a body fluid sealing member and cotton substance as claimed. Nishihara JP 2003111830 discloses a sealing device for preventing the leakage of rectal waste from the anus due to the relaxation of the sphincter caused by death. One having ordinary skill in the art would have been motivated by the teaching of Nishihara '830 to provide the invention of Nishihara '001 with a sealing device for preventing leakage of rectal waste. The sealing device of Nishihara '830 comprises a molding 2 of highly water-absorbing fibers, a water-soluble sheet 3 covering the outer periphery of the molding 2, and a lubricant 4 covering the water-soluble sheet 3.

Nishihara '001/'830 does not disclose a cotton substance. Kitajima JP 8133901 teaches a method of preventing leakage involving inserting a jelly into the inner part of

the nasal cavity and ears and plugging the outer part of the cavities with medical cotton. It would have been obvious to one having ordinary skill in the art to provide the invention of Nishihara '001/'830 with a cotton substance. Doing so would provide a means for plugging the cavity to assist with preventing leakage of bleeding and offensive odor to the outside.

Nishihara '001/'830/Kitajima shows a cotton sealing member for a mouth, ear, and nose plugs in Figures 1 and 2.

### ***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
